Resolution Highlighting President Obama and Democrats' Economic Accomplishments

WHEREAS, over the past six years under President Obama's leadership we have rebuilt our economy from the middle out and recovered from the worst recession since the Great Depression, with more than 58 straight months of private sector job growth; and

WHEREAS, the country's unemployment rate is at the lowest we've seen in six years, last year was the strongest year for economic growth since the recession, and in the third quarter the economy grew at its fastest pace in more than a decade; and

WHEREAS, President Obama and Democrats have been clear that pay equity is a top priority and that the status quo where women make 78 cents to the dollar is not only wrong, it hurts our economy as women constitute nearly half of the nation's work force, and women are their family's primary breadwinner in 40% of U.S. households with children; and

WHEREAS, average gas prices have fallen across the country, and thanks to that and President Obama's actions requiring higher fuel standards and energy independence, the average American family should save around \$750 on gas this year; and

WHEREAS, President Obama made tough choices and took necessary and crucial steps to save the auto industry, saving at least 1 million American jobs that would have been lost, and today car companies are again adding jobs;

WHEREAS, through President Obama's health care law, it's estimated that 19 million fewer Americans will be uninsured by the end of this year, and millions more now have access to quality affordable health insurance because no family should go bankrupt because of illness; and

WHEREAS, the Congressional Budget Office predicts the federal budget deficit will shrink this year to its lowest level since President Barack Obama took office; and

WHEREAS, President Obama made it clear in his State of the Union address that his last two years in office will be guided by middle class economics that ensures everyone benefits from the economic recovery we've fought for instead of failed trickle-down economics of the past;

THEREFORE BE IT RESOLVED that the DNC will continue to support President Obama and Democrats as they work to expand economic opportunity and grow our country from the middle, out, instead of the top, down.

The following Resolution was considered by the Resolutions Committee at its meeting on February 20, 2015, in Washington, DC, and will be recommended for adoption by the full Democratic National Committee at its meeting on February 21, 2015.

Resolution on Expanding Opportunity for Women and Families

WHEREAS, this year marked the 42nd anniversary of the Supreme Court’s decision in Roe v. Wade, a decision protecting a woman’s right to make decisions regarding her own health and the health of her family; and

WHEREAS, March 1 marks the start of Women’s History Month to commemorate the generations of women who stood up and courageously paved a path for all women today; and

WHEREAS, forty-three million workers have no paid sick leave, and President Obama announced in his State of the Union Address that he will advocate paid sick leave and paid maternity leave for all Americans despite Republican obstruction; and

WHEREAS, President Obama also made it clear in his State of the Union address that he will continue to fight until women, who make up nearly half the workforce in the United States, have pay equity; and

WHEREAS, the Affordable Care Act brought health care security to millions of women who can now focus on their professional, academic, financial, and personal goals without having to worry about losing access to quality, affordable health care for themselves and their families; and

WHEREAS, because of the Affordable Care Act, an estimated 48.5 million women now receive preventive health care services without the burden of out-of-pocket costs, and the country has seen a 5.5 percent decline in the uninsured rate among women between the ages of 18 and 64 since 2013; and,

WHEREAS, Republicans in Congress continue to attempt to reverse the progress women in America have made, insisting that a woman’s boss or politicians should be part of conversations between a woman and her doctor;

WHEREAS, Republican-led legislatures have passed laws recently that considerably limit access to safe women's health clinics, attempting to take us back to a time before *Roe v. Wade*'s protections existed;

THEREFORE BE IT RESOLVED that the DNC supports the rights of women to protect her health and advance her economic interests and affirm that when women succeed, America succeeds.

Resolution Recognizing Black History Month and the 50th Anniversary of Bloody Sunday

WHEREAS, February marks Black History Month, giving us an opportunity to honor the many contributions African Americans have made to our nation;

WHEREAS, Black History Month is celebrated in February to encompass the birthdays of both Frederick Douglass and President Abraham Lincoln, two instrumental advocates for the Black community; and

WHEREAS, Black Americans have a rich history of hard-won progress and have had a long-standing role in our nation that must be celebrated and recognized; and

WHEREAS, this year we also commemorate the 50th anniversary of Bloody Sunday and the successful Selma to Montgomery movement. In March of 1965 Black Americans from all walks of life stood together to demand constitutionally guaranteed voting rights. Their courage on the Edmund Pettus Bridge called our nation to action. Their efforts directly led to the passage of the Voting Rights Act that year; and

WHEREAS, we must respectfully recognize the painful parts in the history of Black Americans in the United States and vow to continue to move to a more peaceful time for all—never taking our eyes off of where we came so we ensure we cannot go back; and

WHEREAS, Black History Month gives us the opportunity to reflect on how much more we can do to help honor the legacy of those who fought for the rights of all by ensuring that every child in America has an equal opportunity to succeed; and

WHEREAS, the Democratic Party and Democratic leaders have been champions in both the civil rights and voting rights movements, making it clear that when more people have equality and more people have a seat at the table then our country is better for it; and

WHEREAS, Democrats continue to work toward restoring provisions in the Voting Rights Act that were struck down by the Supreme Court but that are essential to ensuring everyone's voice is heard in our elections; and

WHEREAS, the African American community is disproportionately affected by unemployment and President Obama and Democrats are fighting to raise the federal minimum wage to a fair wage; and

WHEREAS, Democrats work every day to ensure that, regardless of race or the zip code a person is born in, they have equal access to affordable health care, housing, voting, and a quality education;

THEREFORE BE IT RESOLVED, as Democrats we believe in recognizing the contributions and accomplishments of all of those who take parts in our communities and proudly celebrate Black History Month.

Resolution on Immigration Reform

WHEREAS, we are a nation of immigrants and are strongest when we tap the talents of all who live here and embrace our diversity; and

WHEREAS, it remains a top priority of President Obama and Democrats to fix a broken immigration system; and

WHEREAS, President Obama is committed to immigration reform that includes an earned path to citizenship for the over 11 million undocumented immigrants living in this country, and has been clear that he will not accept changes to the immigration system that create two classes of people; and

WHEREAS, the costs of inaction are simply too high to delay and studies have demonstrated that fixing our immigration system would boost our economy, strengthen our borders, and decrease our deficit; and

WHEREAS, our broken immigration system affects individuals of all races and nations of origin – from Europe to Asia to Latin America to Africa – who want to be contributing members of our business and communities; and

WHEREAS, the 113th Democratic Senate passed a bipartisan comprehensive immigration reform compromise that House Republicans refused to bring to a vote; and

WHEREAS, The Obama administration took action to improve our immigration system and give relief from deportation to DREAMers; and

WHEREAS, House Republicans have yet to put forth a comprehensive plan to fix our broken immigration system, and instead want to deport millions of DREAMers who know no home other than the United States and were brought here at no fault of their own; and

WHEREAS, President Obama took bold, definitive action to protect families and stop the deportation of more than 4 million individuals who could stay in the country legally and apply for work permits, but it lies with Congress to take the comprehensive actions on immigration that the country needs;

THEREFORE BE IT RESOLVED, that the DNC supports President Obama's lawful and Constitutional effort to provide immediate relief through Executive Action and renews our call for Republicans to join President Obama and Congressional Democrats in passing comprehensive immigration reform.

Resolution to Urge Congress to Provide the Residents of the District of Columbia with Statehood and Full Democracy

WHEREAS, the United States Constitution that was ratified in 1788, provided the right to vote for representation in Congress to the “People living” in the several states of the United States, and included citizens of the several States as well as those living on the land that would later be designated by the federal government for the nation’s capital as ceded by Maryland and Virginia to become the District of Columbia; however, through the enactment of the “District of Columbia Organic Act of 1801” DC residents were disenfranchised from voting for representative Members of Congress for more than 200 years; and

WHEREAS, District of Columbia residents pay among the highest per capita federal taxes in the nation and more than 200,000 residents have served in the federal armed services, and yet DC residents have no vote in the United States Congress; and

WHEREAS, no other nation in the world denies the right of self-government, including participation in its national legislature, to the residents of its capital; and

WHEREAS, the residents of the District of Columbia lack full democracy, equality, and citizenship enjoyed by the residents of the 50 states; and

WHEREAS, the citizens of the District of Columbia continue to express their determination to achieve full representation by electing two United States Senators and a United States Representative to advocate for statehood and full democracy; and

WHEREAS, the Democratic Party platforms have historically supported statehood for the District of Columbia and we call on the Party to renew that commitment in 2016 by endorsing statehood for the District of Columbia in the Party platform; and

WHEREAS, the new majority in the House of Representatives began the 114th Congress by continuing to deny District of Columbia Delegate Eleanor Holmes Norton a vote in the Committee of the Whole, and is expected to again trample on District of Columbia Home Rule by introducing riders on how the District of Columbia spends its locally raised tax dollars; and

WHEREAS, in January 2015, District of Columbia Delegate Norton introduced HR 317, the New Columbia Admission Act providing for Statehood with a record number of 93 original co-sponsors, and is expected to introduce bills to grant District of Columbia budget and legislative autonomy; and

WHEREAS, in September 2014, the Senate Homeland Security and Governmental Affairs Committee held the first-ever Senate hearing on District of Columbia Statehood and the first Congressional hearing on Statehood in more than 20 years, and S132 and HR292 had a record number of 21 co-sponsors in the Senate and 112 co-sponsors in the House, respectively; and

WHEREAS, the voters of the District of Columbia passed an initiative to legalize the possession of small amounts of marijuana and the majority party claims to have blocked its implementation, and last Congress blocked the District of Columbia from spending its locally raised tax revenue on abortion funding; and,

WHEREAS, although the District of Columbia timely passed a balanced budget for each of the last 19 years, the District of Columbia has faced the possibility of being shut-down each year because of Congressional deliberations over the federal budget and the imposition of riders opposed by the District of Columbia; and

WHEREAS, as part of the FY 2014 and 2015 budgets, the District of Columbia was exempted from federal government shutdowns for FY 2015 and 2016, respectively; and

WHEREAS, the residents of the District of Columbia have endorsed Statehood for the District of Columbia, and passed a District-wide referendum on budget autonomy; and

WHEREAS, President Barack Obama is in support of Statehood for the nation's capital, and has previously spoken in favor of giving the District voting representation in Congress and full control over its budget and laws; and

WHEREAS, it has been 50 years since the passage of the Civil Rights Act and 40 years since the District of Columbia was granted Home Rule, and the residents of the District of Columbia have yet to have the same rights as the residents of the 50 states; and,

WHEREAS, the Democratic National Committee passed the “Resolution in Support of the District of Columbia Fair and Equal Voting Rights Act” in 2007, the “Resolution in Support of the District of Columbia House Voting Rights” in 2009, the “Resolution to Urge Congress to Provide the Residents of the District of Columbia with Full Democracy” in 2011, and the Black, Ethnic, LGBT, Veteran’s, Women’s and other caucuses of the Democratic National Committee each adopted resolutions in support of Statehood at the DNC 2014 Winter Meeting;

THEREFORE, BE IT RESOLVED, that the Democratic National Committee endorse and encourage citizens and their members of Congress to support Statehood and full democracy for the District of Columbia that will guarantee to the residents of the District of Columbia full Congressional voting representation, budget autonomy, and all of the rights that the people of the 50 United States enjoy.

The following Resolution was considered by the Resolutions Committee at its meeting on February 20, 2015, in Washington, DC, and will be recommended for adoption by the full Democratic National Committee at its meeting on February 21, 2015.

Resolution Supporting Healthcare, Education, and Job Training for our Service Members, Veterans and Military Families

WHEREAS, as we give thanks for the sacrifices of all those who have served our country honorably at home and abroad - our service members, veterans and military families - we must acknowledge that years of war have put too heavy of a burden on too narrow a slice of our population, and we must do more to fulfill our moral obligation to serve those who serve us; and,

WHEREAS, our returning veterans face too many obstacles in receiving earned benefits, services, and opportunities such as healthcare, job training, education and transition services which in turn put further strain on military families; and

WHEREAS, as President Barack Obama has said, "we should never send America's sons and daughters into harm's way unless it is absolutely necessary and we have a plan, and we are resourcing it and prepared to see it through;"

THEREFORE, BE IT RESOLVED, that the Democratic National Committee (DNC) urge swift action to secure veterans the benefits, services, and opportunities they have earned: getting health care, including assistance for post-traumatic stress disorder (PTSD) and military sexual trauma (MST); end the backlog in disability claims; implement the Clay Hunt SAV Act; end the scourge of veterans' homelessness by the end of the year; provide more public-private partnerships that assist military spouses and children; and, build out tools such as the Veterans Employment Center and the Boots to Business initiative so veterans and their families have the jobs, skills, and education they need to succeed; and

BE IT FURTHER RESOLVED, that out of respect for current and future generations of veterans, the DNC insist upon a diplomacy-first approach to threats with war only as a last resort and at a level of planning and resources worthy of the sacrifices made by our men and women in uniform.

Resolution to Propose Four Legislative Reforms to Prevent the Future Use of Torture by the Government

WHEREAS, the Senate Select Committee on Intelligence released the Findings and Conclusions of its study of the CIA Detention and Interrogation Program in December 2014; and

WHEREAS, the Democratic National Committee believes that the evidence is overwhelming and incontrovertible that the U.S. Government engaged in torture; and

WHEREAS, Executive Order (No. 13491) is not codified as a part U.S. law and could be overturned by a future president with the stroke of a pen and changes must be made in U.S. law to insure that the United States never again engages in any action of torture; and

WHEREAS, this support for proposed legislation is meant to codify the January 22, 2009 Executive Order (No. 13491) entitled, “Ensuring Lawful Interrogations;”

THEREFORE BE IT RESOLVED, that the Democratic National Committee support the conclusion that, under any common meaning of the term, CIA detainees were tortured and the conditions of confinement and the use of authorized and unauthorized interrogation and conditioning techniques were cruel, inhuman, and degrading, constituting torture. This new legislation will expand this limitation to U.S. Intelligence Community personnel as well, consistent with Executive Order (No. 13491); and

BE IT FURTHER RESOLVED, that the Democratic National Committee support establishing the U.S. Army Field Manual as the Exclusive Set of Interrogation Techniques; and

BE IT FURTHER RESOLVED, that the Democratic National Committee support ensuring that U.S. policy never again allows for secret indefinite detention. This new legislation will prohibit the U.S. Government from holding captured detainees other than on a “short term, transitory basis” consistent with Executive Order (No. 13491); and

BE IT FURTHER RESOLVED, that the Democratic National Committee support requiring the U.S. Government to notify the Red Cross and provide timely access to all captured detainees. This new legislation would provide access to those detainees as soon as practicable, consistent with Executive Order (No. 13491); and

BE IT FURTHER RESOLVED, that the Democratic National Committee insist on closing all torture loopholes to prevent abuses such as when U.S. domestic law prohibiting torture and the Detainee Treatment Act of 2005 were both interpreted by the White House office of Legal Counsel to allow the CIA to use brutal physical and psychological interrogation techniques even though existing U.S. law and treaty obligations should have prevented many of the abuses and mistakes made between 2002 and 2007. This new legislation will make clear that such interrogation techniques are prohibited, consistent with Executive Order (13491); and

BE IT FINALLY RESOLVED, that the Democratic National Committee demand that Congress enshrine Executive Order (No. 13491) in these recommended legislation proposals and requests state legislatures and other elected governmental bodies to send similar requests to their Congressional delegations.

The following Resolution was considered by the Resolutions Committee at its meeting on February 20, 2015, in Washington, DC, and will be recommended for adoption by the full Democratic National Committee at its meeting on February 21, 2015.

Resolution on a Right-to-Vote Amendment to the U.S. Constitution

WHEREAS, in a democracy, the right to vote is a *moral imperative*, the most fundamental *legal right* and is *protective of all other rights*; and

WHEREAS, when President Lyndon B. Johnson signed the 1965 Voting Rights Act he said, “The right to vote is the basic right, without which all others are meaningless”; and

WHEREAS, each state, except for the State of Arizona, has explicitly enshrined the right to vote with at least some level of protection in its state constitution; and

WHEREAS, nowhere in the United States Constitution is there an explicit declaration of the right to vote, which weakens protection in federal courts and undercuts state voting rights protections due to state courts often “lock stepping” rights to the level of support provided federally; and

WHEREAS, the United State Supreme Court has called the right to vote a fundamental right, this fundamental right should be *explicitly* guaranteed to all Americans in the U.S. Constitution; and

WHEREAS, as President Barack Obama, as a professor of constitutional law at the University of Chicago, began each of his constitutional law classes sharing with his students the surprising fact that an explicit “federal individual right to vote” is not in the U.S. Constitution; and

WHEREAS, the only reference to an individual right to vote in the original U.S. Constitution and Bill of Rights is the requirement that any citizen qualified to vote for a member of a state’s most “numerous house of the state legislature” is eligible to vote for Members of the House of Representatives; and

WHEREAS, the Constitution has been amended 17 times since the passage of the Bill of Rights and 7 of those amendments pertain to voting – 14th, 15th, 17th, 19th, 23rd, 24th and 26th – but none of them add the *explicit, fundamental, affirmative, individual, citizenship or federal right to vote* to the Constitution; and

WHEREAS, three amendments *outlaw discrimination in voting*, whether on the basis of *race* (15th) with the 1965 Voting Rights Act serving as the implementing legislation for this amendment 95 years later, *sex* (19th), or *age* (26th); and

WHEREAS, a right to vote constitutional amendment would *fulfill* the promise of the 15th, 19th and 26th Amendments; and

WHEREAS, of the 119 nations that elect their public officials using some form of democratic elections, 108 have the right to vote in their constitution, but the United States is one of the 11 nations - including Australia, the Bahamas, Bangladesh, Barbados, Belize, India, Indonesia, Nauru, Samoa, and the United Kingdom - that does not explicitly contain a citizen's right to vote in its constitution; and

WHEREAS, with the exception of certain federal laws such as the National Voter Registration Act of 1993, the Help America Vote Act of 2002 and the Military and Overseas Voter Empowerment Act of 2009, the U.S. has virtually no national uniform standards for voting systems controlled by the states; and

WHEREAS, since *voting is a state right*, with virtually no national uniform standards, we have ended up with multiple and varied election systems in the 50 states (plus the District of Columbia), 3,143 counties (or county equivalents), and about 13,000 local voting jurisdictions that administer about 186,000 precincts, all organized and controlled and managed by local election officials with 86% of Section 5 of the Voting Rights Act Preclearance objections involving *local*, not national or state, voting issues; and

WHEREAS, the United States Supreme Court has unfortunately undermined the right to vote in recent years, notably in its 2013 decision of *Shelby County v. Holder* which made the preclearance requirement ineffective and, as Freedom Rider, Selma marcher and US Congressman John Lewis so aptly stated, "struck a dagger in the heart of the Voting Rights Act"; and

WHEREAS, since 2014 at least 83 restrictive voting rights bills were introduced in 29 states, and the Brennan Center reports that 21 states have enacted restrictive voting laws since 2011, including North Carolina, Ohio, Texas, and Wisconsin, and that in Texas alone this will affect more than 600,000 adult-age citizens who do not have state-issued photo identification; and

WHEREAS, voter turnout in November 2014 represented a smaller percentage of eligible voters than in a congressional election since 1942, voter turnout in many primary elections in 2014 was at an all-time low in more than half of states holding primaries, and voter turnout in some major cities is now in single digits; and

WHEREAS, a "right to vote" constitutional amendment applies to and should be supported by all Americans because it is (a) *non-partisan* – not Democratic, Republican or independent; (b) *non-ideological* – not liberal or conservative; (c) *non-programmatic* – it does not require you to support or oppose any particular legislative program(s); and (d) *non-special interest* – it's application is not limited to minorities, women, labor, business, seniors, lesbians and gays or any other special interest groups;

THEREFORE BE IT RESOLVED, that the Democratic National Committee (DNC) supports amending the United States Constitution to explicitly guarantee an individual's right to vote; and

BE IT FURTHER RESOLVED that the DNC will encourage state parties to work with state lawmakers and others to access the need to petition for a statewide referendum on the November 2016 general election ballot (and all states where this is possible), advocating to amend the United States Constitution to explicitly guarantee an individual's right to vote; and

BE IT FURTHER RESOLVED, that the DNC specifically supports House and Senate Joint Resolutions which would amend the United States Constitution to explicitly guarantee an individual's right to vote – e.g., such as resolution H.J. Res. 25 introduced into the 114th Congress by Congressman Mark Pocan of Wisconsin and Congressman Keith Ellison of Minnesota; and

BE IT FURTHER RESOLVED, that the DNC supports H.R. 885 to amend the Voting Rights Act of 1965 to revise the criteria for determining which States and political subdivisions are subject to section 4 of the Act, as introduced in the 114th Congress by Congressman James F. Sensenbrenner of Wisconsin along with 30 cosponsors, including several members of the Congressional Black Caucus; and

BE IT FURTHER RESOLVED, that the DNC will educate the general public on this issue by drafting and distributing this resolution in support of amending the United States Constitution to explicitly guarantee an individual's right to vote and sharing the resolution with all appropriate governmental officials; and

BE IT FURTHER RESOLVED, that the Democratic National Committee encourages other organizations and individuals – e.g., political organizations and leaders, religious organizations and leaders, civil rights organizations and leaders, other civic organizations and leaders, business organizations and leaders, voting rights organizations and leaders, labor organizations and leaders, women's organizations and leaders, youth organizations and leaders, gay and lesbian organizations and leaders, environmental organizations and leaders – to pass organization resolutions to endorse amending the United States Constitution to explicitly guarantee an individual's right to vote; and

BE IT FURTHER RESOLVED, that the Democratic National Committee will establish a Right to Vote Taskforce to make recommendations on changes in laws, regulations, and practices designed to improve voter participation and better uphold voting rights in local, state, and national elections and consider changes to recommend to state and federal constitutions, statutes, and regulations; and

BE IT FURTHER RESOLVED that the Democratic National Committee will continue to work with members of Congress and the Obama Administration to repair the Voting Rights Act of 1965; and continue to work with various Secretaries of State and other election administrators to ensure all eligible citizens have access to the ballot box across the country.
